Started feeling stiffness and pain from my training and having several fights back to back. I stopped here to see what I could do to get things under control and immediately after session I could feel the difference and really looking forward to getting my body back on track after the next few visits!!

## RESPONSE

I know this is going to help you Ty. Just like training it may take a little bit of time to heal. While I am not Harry Potter I am sure a little "Chiropractic mojo" will help for all your right moves. Thanks for choosing me as your Chiropractor of Choice. See you next week.

It was my first time at a chiropractor's. Doctor Warwick was amazing and explained everything he was doing as well as causes and how to fix them. He adjusted my back and gave me amazing relief. I highly recommend anyone facing back pains or aches to come here and at least get an exam done, especially for first timers! Really sweet place.

Dr. Warwick is a great and honest Chiropractor. I am a colleague of his and I have know him to be a very honest Chiropractor who does not do expensive prepayment plans or unnecessary treatments . He gives patients what they want which is pain relief and does not pressure his patients to keep coming in when the treatments may not be necessary. This can be hard to find in Chiropractic which says a lot about him as a person and a professional. His philosophy is not sell you on anything (prepay packages) and will try to get you out of pain as soon as possible.

When I walked into his practice for the first time, my back muscles were hard as a rock (and therefore initially resisted adjustment), and I had neck, back, and arm pain. He inspires you to work with him for your best outcome.

For years I've had issues with my neck and back due to my time in service. Having children and breastfeeding. My only care was through the VA and we are only allowed so many visits with a chiropractor and it was never truly enough. I happen to stumble upon Dr Warwicks Facebook ad and scheduled an appt. I've been in so much pain for the last 10 years and after an adjustment in his clinic I felt so much better and am so happy I booked an appointment with someone who has years of experience working with military members and his level of respect to you as a patient and how you can tell he genuinely cares about you. Is the reason I'm coming back and will continue to receive my care from Dr. Warwick.

Boy has he been a life-saver for getting me back on my feet. I have been receiving care from Dr. Warwick for over five years and could not be happier with the quality of care that I have received. I am very active and in good shape then injured myself five years ago not taking in the consideration that I was now 40 and lifting weights as if I was in my 20s. My lower back was in excruciating and constant pain and medications did little to fix the situation. My doctor sent me to physical therapy which helped a bit, nevertheless I was still in pain and lacking the mobility I had before my injury. A friend recommended I visit Dr. Warwick which I did. After a few visits I was feeling much better and shortly returned to being able to do the things I love. I cannot say enough good things about Dr. Warwick he is just an amazing, truly caring individual.

Pain meds, stretching, and losing weight did not ease my lower back troubles. For years I've had Physicians prescribe me something after another, only providing me temporary relief. Massage therapy helps, but after a few days, I found myself waking up again from the nagging pain. I went to see Dr. Warwick and after seeing him for about a year, I realized that Chiropractic therapy was the missing component in my healing regimen. I definitely have more freedom of movement with less pain and my body lets me know when it's time for another adjustment. After the results I've experienced, I can't imagine NOT seeing a Chiropractor and Dr. Warwick comes with my highest recommendations.

Dr Warwick is amazing. Â First let me start off by saying I have had siatica pain and neck issues, that cause migraines for over a decade. Within three visits I was pain free! This is coming from a person whom has endured injections and heavy narcotics for years. Â The process is simple and takes about 20 minutes. I wish I would have visited Dr Warwick sooner! Honestly, what do you have to loose?

Dr. Warwick is a miracle worker! My wife and I called and saw him within hours. My wife was barely able to walk and in excruciating pain. Within about 10 minutes not only was she walking normally but she was largely pain-free! We will continue to see Dr. Warwick as long as he practices. I can't say enough great things about our visit...Thanks Dr. Warwick!

I just have to say Dr Warwick is a very concerned with helping the patient and the needs of the patient. I have a difficult life in that I can't really schedule appointments and keep them. The ability to drop in mon-thur 10-6 makes it much easier for me to get the care I need. I am extremely impressed with the care and attention to my physical issues. Went from barely able to walk without major back pain to leading a mostly normal life. Thank you Doc for helping me enjoy the activities I love again. Like riding my Harley comfortably again and working on old cars.

I have suffered from back pain for several years. I have seen multiple chiropractors, doctors, massage therapists, and acupuncturists. I even had 3 back injections! All provided no relief. I saw Dr. Warwick ONE time and I was pain free for 12 hours, which was the first time I had been pain free in years! After 3 treatments I was pain free for a week! HIGHLY RECOMMEND!!

I love getting an adjustment from Dr. Warwick. He is fast and thorough. One of my favorite things is his ONLINE scheduling. I can have his website scheduling page open and my calendar out and take my time deciding which day/time will work best for me. I have had only wonderful visits and I will recommend him to anyone seeking Chiropractic care.

I am not a patient of Dr Warwick's but he did do my adjustment at gig harbor chiropractic and massage. He did a great job. It was a pleasure to find out who he really was at my next appointment. I receive emails through Dr Warwick and also watch his YouTube videos. Thank you so much for doing my adjustment. It helped out so much. I am looking forward to any future appearance at gig harbor chiropractic and massage.

Dr. Warwick does a great job of educating his clients and getting them to think beyond just fixing/managing symptoms. You get the feeling that he's always after the "root" cause of the symptoms...which is exactly the type of care I look for!
