Dr. Warwick took great care of me, eliminating my back pain after just a few visits. I never had been to a chiropractor before, but my GP recommended a visit and I am glad I chose Dr. Warwick based on the reviews I read. I highly recommend him to anyone who experiences back pain. Thank you, Dr. Warwick!

RESPONSE

Glad it only took a few visits to get you out of pain. See you when you need us Klaus!

I came to Dr. Warwick's after my old chiropractor moved away so was looking for a new practice. I had neck and shoulder pain from a previous injury, Dr. Warwick's adjustments have helped to resolve the issue. They were even offering free 15 min massages one time. I'm continuing my treatment here, excellent service.

REVIEW

Went in with pain, had less after I left and then it proceeded to get worse. The staff is great but they have a product up front that you can get for free if you write a review on the spot. I did and gave 5 stars. I'm assuming I am not the only one to do so. I have changed my review because of this. Also the product is available at Walmart for less money.

RESPONSE

We apologize you felt better after your treatment then proceeded to worsen. We did offer you the product to aid in your recovery along with other therapy options here and at home at no charge to you. You are correct, if you search all purchase options you most certainly may receive it for less. If there is anything we can do differently to help you please contact us.

I did a walk in and my back felt better instantly when I stood up. I wasn't aware that the VA may cover adjustments. While getting to know me and my history, Dr Warwick informed me that he accepted Tri-West and that I could consult my Primary Care Provider at the VA to request a chiropractic referral for his services due to my service connected disability. Dr Warwick was awesome at advising me how to take better care of myself by relating instances of his profession to automotive maintenance work which I better understand. I look forward to my follow up appointment next week!

REVIEW

I have been going through 6 months of horrible hip and SI and pelvic pain. I had slipped and pulled my adductors, groin, hip flexors. As a result of the injury my quality of life had gone from being incredibly active to being about 90 percent disabled. No one has been able to help. Physical therapy made me worse. Other chiropractors did not help. Out of desperation, I was searching for help online and had found a YouTube video of Dr. Warwick's. Then I realized he was within driving distance to see. I called and made an appointment. After only 2 appts with Dr. Warwick I have achieved significant relief. I am feeling much better about having a positive outcome to my six months of pain. I am already able to move around with significant less pain.

RESPONSE

We will keep working on it. This may take a bit but we are making great progress. See you soon.

I get severe headaches caused from a curvature in my neck that pulls on my muscles. I've done physical therapy and other than some exercises and stretches I do at home, there's not much else I can do. I've gone to Valerie when I've been in extreme amounts of pain and had headaches that made it difficult to function in my every day tasks. It's amazing the immediate relief I feel after just one session. She's very personable and utilizes great techniques that are very person/patient specific. I highly recommend her!

Aside from being a great chiropractor, Dr. Warwick is just a really good guy and someone I trust to truly do no harm. He employs a range of techniques to stretch and relax the muscles before going into spinal manipulation. This is the first chiropractor I've seen who takes such great care to carefully prepare you for treatment. Dr. Warwick's treatment has provided me with great relief from neck and shoulder strain due to long hours at the computer. He is very dedicated to his patients and it is very easy to get in to see him. The entire staff at Warwick chiropractic are caring people and friendly who make each visit a pleasant experience.

At first they seemed nice and helpful. But later I found that after being treated they were not sending complete notes to insurance. Causing insurance to not pay fully. When asked what was going on they blamed the insurance company. Then due to insurance not paying they denied continuing treatment. Now months later they have sent me to collections and have not responded in 2 months to my attorney's request for bills and records. Can't ever seem to get a hold of anyone in billing. Marketing is really important to them more so than treating patients.

I've been seeing chiropractors for over 20 years in North Carolina, Arizona, California and now here in Lacey. Doctors vary and you have to figure out which one fits you. I had my first session with Dr. Warwick and it was the first time that I've felt comfortable on the first visit. From the staff to the Dr., everyone is kind and caring. Dr. Warwick is truly engaged while speaking with you. He listens and asks questions, he does not make assumptions. Your care and how you feel are very important to him. For six months I have been living with severe vertigo and dizziness that has been affecting my daily life, causing me to become extremely discouraged. I saw countless specialists who had no answers. Thanks to Dr. Warwick I am starting to feel better and live my life to the fullest again. Dr. Warwick extensively went over my previous health background and thoroughly examined the causes of my issues... he is a compassionate listener and cares a lot about his patients, making sure they not only feel better, but understand how his work directly affects their body and it's function. REVIEW

I wholeheartedly recommend Dr Warwick if you want pain relief. Due to my job in the Army I've done some serious damage to my body, and I've seen different chiropractors around the country. Dr Warwick stands out as someone who actually asked me questions, listened to my answers, and adjusted me accordingly. He used a heating pad and motion table to limber up my back and used gentle manipulation to get everything in place. My hips were about an inch off and it was painful to walk and stand but after my adjustment the pain was gone. He also gave me good advice on pain relief at home. Again I've seen quite a few chiropractors who simply cracked my back in a minute, but Dr Warwick gently moved everything into place. As an added benefit I got a chair massage afterwards which helped with any post adjustment soreness. Warwick Chiropractic has a very friendly staff as well as an easy to find location. I can schedule appointments online or walk-in if need be. Highly recommended!

I was experiencing severe lower back pain and have been skeptical of going to see a chiropractor in the past. This pain was intense and lingering and I felt something needed to be addressed. I met with Dr. Warwick and he was very welcoming. He explained the science behind my pain and set up a plan to address it. After a through adjustment I left the office feeling much better and am confident he will be able to get me back to my normal active self in no time. My wife and I were patients of Dr. Townsend in Redmond..the “Teacher of the Teachers” of Chiropractic Medicine. Upon Dr. Townsend’s retirement we used 3 different Chiropractors before finding Dr. Warwick. Like Dr. Townsend, Dr Warwick’s treatments were successful, his counsel valuable , his adjustments painless. I could barely walk when I entered his office with extreme pain in my right knee area. 2 days after Dr’s. adjustments I still hurt. 4 AM the next morning I was able to walk pain free. He is an excellent Dr., writes many books on Chiropractic treatment and sends periodic helpful emails and appointment reminders. You’ll be pleased with everything..his staff, office environment and care.

Omgoodness! I had a bad experience with a chiropractor before, so I was long overdue for an adjustment! Best experience ever! A lot of relief after just one visit! I don't have insurance to cover and the out of pocket cost is very reasonable. Thank you Dr. Warwick, I feel ah-mazing!!

After a fall that injured my leg and affected my ability to walk easily, I saw Dr. Warwick for chiropractic care. After getting adjusted, I don't have as much difficulty with stairs, I am able to walk my dog daily, and my balance and stability have much improved. The office is easy to get to, the staff is very kind, and Dr. Warwick is very personable and professional. He listens to your concerns and is a great Chiropractor! Â Thank you Dr. Warwick and staff!

Dr. Warwick is a phenomenal Chiropractor with the knowledge, patience, and care you want in a doctor. He genuinely cares about each patient that comes through his door and is always striving to improve. I've tried a couple Chiropractors in the area, but his techniques and quality care are what keeps my husband and I coming back. His online scheduling and walk-ins make it VERY convenient for us to schedule the morning of! We highly recommend Dr. Warwick!

RESPONSE

Thank you and always a pleasure to see both of you!

REVIEW

Great doc, better person! Â I would certainly vote for Dr. Warwick as best chiropractor in the Olympia area and maybe even in the state itself. Â I am new to the area and needed a chiropractic adjustment due to a re-occurring pain in my lower back every few years. Â However, I am very “picky” meaning “difficult to please” when choosing a doctor and I am willing to drive miles for the best. I want my doctor to be highly trained with post graduate studies, know the most up to date procedures, have considerable experience and is absorbed into his field having written books, articles, and blogs for the public. In other words, he has a love and passion for his profession. But on top of all that “heady technical stuff”, I want a doctor who communicates well and who transcends calm before performing an adjustment. (It makes me apprehensive when a doctor is tense and on edge.) Â And, of course, I want my doctor to be truly interested in the welfare of his patients. A pleasing “down to earth” personality is important to me along with an amazingly friendly and competent staff. Â And last, but not least, he has fair prices for his services. This is a long list, but Dr. David Warwick met my complete list of requirements. And yes, my pain is gone. You’re the best, doc!

At the risk of sounding cliché, I have to admit that my life has drastically changed because of the treatments I've been receiving here. Dr. Warwick is professionally warm and passionately believes in his practice. He makes a point to educate his patients, which I appreciate tremendously. My words cannot justify the experience you'll receive, so the best thing for you to do would be to stop by and see for yourself.

Dr Warwick is excellent! I wasn't sure about chiropractors before but I needed help with an injury after working out and couldn't get in to see my regular doctor for weeks, so I gave Dr Warwick a try. Even with my injury healed now I still go in to see him for regular adjustments when needed and always look forward to them. My favorite part about my experiences with him is that he really cares, he's not trying to sell you on anything. Plus, in the months I have been going to him he has always been positive and supportive; I always leave feeling better physically and mentally. Thank you Dr Warwick. Keep up the great work!

I've had chiropractic a couple of times before, several years apart. Each time I have it, I tell myself to have it on a regular basis. It works. Dr Warwick is very, very good. Excellent office staff to support him, he is not in a hurry, explains everything, and above all, very careful with you. I highly recommend him if you have pain, maybe related to a nerve or who knows. Most of all, he's a nice man and will have your best interest at heart.

Wow, I was already a believer in chiropractic having used it over the past 50 years a couple of times. Â The first time I had it was in Idaho years ago and they literally saved me from an operation. Â Dr Warwick is incredible. Â Very up front, honest, and explains what he will do before he does it, and asks your permission. Â One visit and it's like I'm walking on air. Â Very professional office with wonderful support people. Â Go see him.

At 7.5 months pregnant, trying to find a chiropractor who is experienced and wouldn't cause me harm can be difficult. Dr. Warwick was fantastic when I saw him for my first appointment, and I felt amazing after my appointment with him. And plan to continue my chiropractic care with him as I lead up to delivery and post partum. He and his staff were very kind. They didn't mind me bringing my 2.5yo along and one of his nurses even helped keep him calm when he got a little upset. I highly recommend him!
