Dr. Warwick is a very attentive and caring doctor. When telling him about my neck and shoulder pain, I felt that he was truly listening to what I was saying instead of just waiting for me to finish talking so he could adjust me. While some chiropractor's adjust their patients all the same, Dr. Warwick treats each patient as an individual. As an employer, I can honestly say that he is one of the best I've ever worked for. He really cares about the environment his staff and patients are in and works to ensure that it's comfortable, accommodating, and efficient. You won't find a better chiropractor in Washington State!

I came across Warwick chiropractic after a Google search and found them to be close to my home. I was in a great deal of pain from life related damage to my back. I was able to see the Doctor almost immediately, (less then 5 minutes) i walked out of his office able to move again, and in considerably less pain. The staff was very friendly and professional.if you are looking for a fantastic chiropractor give them a try! I'm sure you will be as satisfied as I am. I will be going back as needed. Thanks Doc! You made a huge difference in my quality of life.

Enjoyable comfortable experience. I love that when I walked in I was immediately taken care of by staff. Dr Warwick is very professional and courteous as we verbally walks you through each step he takes ensuring your comfortable and informed the whole time. He is the kind of Dr you can joke with but who will also remember your name and details you chat about throughout your appointment. His after care advice is very thorough and you leave feeling immediately better AND informed!

REVIEW

Having never seen a chiropractor before (I was always afraid of the idea of someone cracking my spine), I joined the team at Warwick Chiropractic & Massage as a Licensed Massage Therapist. After a few months working here, I got on Dr. Warwick's table. It was a total game changer. I've lived in chronic pain most of my life. Getting regular adjustments at WC&M has changed that. I am able to do more work with less issues on a daily basis and enjoy more activities in my off-time. On the work side of things, I could not be more pleased with my situation. I get to come to work with great, supportive, friendly, knowledgeable staff. For the first time in my adult life, I work a career I love. And working at Warwick Chiropractic & Massage, I wake up every day excited to come into the office and help people. Overall, I feel incredibly glad to have found this place to work and be treated! I recommend to all my friends and family!

First of all, to take walk ins is great, for so many suddenly experience pain and need help NOW! ^ HE is there! ^ The staff is exceedingly friendly. He and the massage therapist (both knowledgeable!) work together. ^ That is undoubtedly the best treatment, for they definitely go hand in hand. In my case follow up appts were necessary (I could see, not just them telling me I had to come back to get a 'full dose'), price quite reasonable, and NO pressure to continue longer than necessary. ^ Also, Dr. Warwick's book is extremely informative.....and you know you are receiving the latest and best treatments in the whole field of Chiropractic medicine! ^ Thank you all!!! ^ Kathy R

Dr. Warwick is not only a wonderful chiropractor who truly cares for his patients, but a great employer who creates a fun, professional atmosphere to work. I have been working for Dr. Warwick for almost 6 months and without fail I can say this is the happiest, most well run place I have ever been employed. Whether we are super busy or slow for the day, each patient receives the same amount of care and attention possible. I love being a part of this team, and my family loves being patients.

Doc cracks me up... literally. Lol We enjoy going to WC because we get RELIEF FROM OUR PAIN. The staff is very friendly and professional. We have scheduled appointments over the phone, online, and even walked in on the spur of the moment. The adjustments are priced so we can go as often as we need. As a veteran I have used Veterans Choice to cover the cost of my visits in the past and hopefully will be able to use that benefit again. Either way itâ€™s worth it to get relief from my pain.

REVIEW

After a long plane ride across the States to WA, my back and neck were particularly sore. I also suffer from tinnitus and the engines caused my ringing to spike somewhat. Pretty normal for me, it is what it is. I checked online for a decent chiropractor near where I was staying in Olympia, and Dr Warwick's office seemed the best option. Many positive reviews plus a youtube channel full of adjustments made me feel I knew what I was getting before even getting to the clinic. And he didn't disappoint. My neck pain in particular was bugging me the most after the flight and his adjustments made me feel so much looser and stress free. My tinnitus even return to its normal level! If I was staying longer I would be seeing if he could reduce my tinnitus even more, but I will seek another chiro here in NJ to get that treatment. It's given me hope for sure that I can get this ringing under control. Anyway, wouldn't hesitate in flying back again. Staff were super helpful too and couldn't be happier. Thank you Dr W and team. Keep up the good work.

Just called to inquire about treatment. When the receptionist picked up the phone I said "Hello, my name is Meighan and I'm calling to see if you accept my insurance". Instantly she tells me they do accept my insurance but I need to call my insurance to inquire about my cost's.... before I try and give her my name... I'm being courteous by giving my name when I call anywhere. She said it so rude and I was using normal phone etiquette. Instantly made me want to go elsewhere. And what's funny is by the end of the phone call.... she asked me for my name. Would not want to encounter anyone this rude at any visit.

I am a registered patient under a different name and thanks for offering to discuss it with me but i want nothing to do with your business again and have a good chiropractor already. I highly recommend Dr Warwick. I was having awful back and neck pain and was having trouble sleeping. I had been to a chiropractor many years ago and decided to give it another shot. I literally walked in without an appointment and after filling out paperwork with the sweet receptionist I was seen immediately. Dr Warwick was kind and knowledgeable and communicated with me with each adjustment. He always gave me an "out" if there was anything that I didn't like about the way he was manipulating my back. I was surprised to see how quickly I felt better. Looking forward to future visits to keep my spine in line! I also received a copy of the doctor's book he wrote. Thank you, Dr Warwick.

Dr. Warwick and his staff are wonderful, patient and kind. We're always greeted with a smile at the front desk and the wait is never long. He's actually treating my teen daughter for chronic neck pain. She's at that weird age where personal space can be a big thing and he's been great at being aware and sensitive to that. His communication as to what he's doing and why is wonderful and helps put her, and me, at ease. He's a joy to speak with and truly seems to care about your overall well being. His suggestions on continuing healthy practices to improve and maintain alignment, in addition to the services he provides, are life changing.

This dude is a quack and gave me whip lash. Â Very gimmicky. Â If you are a seasoned chiropractic patient, you will be severely disappointed. Â He puts you on a table that wiggles for 10 minutes and walks away to deal with other patients. Â When he gets back you get a quick adjustment (and maybe some whip lash) and you're sent out to the lobby to get his free book with a bunch of his business cards in it (yay). Â Don't give them your email, they will send you junk mail. Â He wanted me to come back the very next day... quack. Â Worst one I've ever been to and I've been to tons. Â And what's with the doctor jacket? Seems a little full of himself.

So easy to get in for an appointment when needed! Dr. Warwick is easy to talk to and he explains the corrective approach for your back. Beforehand, I explained to him that I prefer aggressive bone cracking chiropractors, and so he was able to accommodate to my preferred style. However he is also capable of softer spine manipulation. Watching his YouTube videos with his (consenting) clients is exactly the care he takes with everyone. Overall, you're gonna leave feeling fantastic like you walked out with a new spine!

I have been using Chiropractic medicine since I was 13, as with all medicine there are doctors who listen and those who don't. I appreciated being heard when I told Dr. Warwick what my issues were. He was thorough and made sure he worked with my whole body not just the points of pain. It had been over a year since I had seen a chiropractor and there was a lot of work to be done, but he did not stop until he did everything he could for me. I was hesitant to see a chiropractor, because the first experience I had with one was terrible. After my first experience with a chiropractor i tried a multitude of procedures, such as physical therapy, regenerative injection therapy, acupuncture, and more. All of which were a vain attempt to diminish the pain. After having endured immense pain, for several years, i knew i needed to try again. I have now completed somewhere between 8 and 12 sessions with Dr. Warwick. I feel astonishingly better. I do still have pain, but it is barible. I can now also enjoy many activities that I previously could not; a vast improvement. Dr Warwick's office is clean and up to date with modern technology. he and his staff are wonderful, exuberant, and genuinely care. I leave happy after every appointment due to the quick, but unerring treatment. Dr Warwick and his staff have a tenacious resolve to help people get better and stay that way. Overall, I greatly appreciate what they have done for me. It is truely awesome for me to leave somewhere and not be apoplectic or depressed as I get upset relatively easily. I think that you should give they a try. Maybe they can help you like they did for me.

This Dr. is very nice but after your \$200 plus appointment he will not speak with you again. Insurance is not confirmed in advance and my total bill for ONE generic adjustment was over \$200 dollars. I read a post like this before going and once I showed up to the office I was assured that it was an exception to the rule and the person who wrote the review was a problem patient. NOT THE TRUTH...the cash payment is \$60 for the same appointment I had but that was not an option for me once I left the office...Good luck if you choose this Chiropractor. The one star is for the Doctor, he was nice enough. I was charged over \$200 for one adjustment and no one would work with me or adjust that amount even though their cash price is only \$60. I have been using Chiropractors off and on for 30 years and have never EVER been charged \$200. I read a review from a patient claiming to be ripped off and yes...I gave him another chance since his other reviews were so high. I was assured by the office staff that the patient review was a disgruntled patient, well, I understand. I am disgruntled as well. The office staff will not work with the bill, I have called multiple times and I have not gotten any relief from this exorbitant amount.

I went to Dr Warwick with a catch in my hip which was hindering my walking without pain. He treated me the day I walked in. I immediately felt better though it took a couple treatments to relieve it from reoccurring. Dr Warwick is now my Chiropractor.

REVIEW

I want to preface my review noting that in my 39 years of existence on this planet I have never once broken a bone or have been dramatically injured even though I played club, semi-professional and professional hockey for many years until my retirement. It almost comical to refer to it as retirement considering I was barely 23 years of age when I hung up the skates and quit playing professional hockey. The memorial holiday weekend I somehow hurt my back. I had a hockey game Saturday night, Sunday was a little sore, Monday a little sorer, but nothing a couple of ibuprofen could fix. The Tuesday I woke and as I tried to get out of bed I fell on the floor with the worst back pain and I felt like I had no control over my lower back in any manner. I had no idea what I did to hurt myself. For the first time in my life, I was experiencing pain like I have never felt before. Considering when I played professional hockey I had my top 4 teeth knocked out by a puck and kept on skating till the end of the game without any issues is hopefully an indication of the level of pain I was feeling. I literally crawled across the floor to the bathroom and took some ibuprofen and crawled back to bed. I figure in a few hours I would be "good to go" so I just needed to take a nap and when I woke everything would be back to normal. Boy was I wrong.....A few hours later I woke and there was no change. I literally could barely move at all. My back felt "stuck" and any type of strain put on it, even as little as changing from a sitting to standing position, and vice versa, resulted in terrible pain and lack of muscle control. A few times I almost fell face forward when trying to adjust from sitting to standing. After a couple of days of my situation not getting any better I went and to see a chiropractor. I figure that it was time for someone to check and make sure there was no significant issue or trauma. I went to another clinic, which I will not name, and while they were very nice I didn't feel the chiropractor made any progress in helping my back heal. I spent 3 sessions there before accepting the fact I needed to find someone that possessed a more advanced level of chiropractic relief. After spending a ton of time on Google, Yelp, and other search engines cross-referencing reviews and such I arrived at Warwick Chiropractic. I scheduled an appointment online and a couple hours later, after driving from Seattle to Lacey, was able to get the type of adjustment my body was needing. I literally felt like a new person immediately after. I am excited to go back again and get another adjustment to help get my lower back to 100% so I can resume my normal life. You never realize how important your back is in your day to day life until it "gives up on you." The staff here is professional and kind. Dr. Warwick is amazing. If I could give him 10 stars I would. That says a lot since I am a difficult person to please and rarely ever hand out a 5-star review to any business Warwick Chiropractic absolutely deserves it. Make sure to check out their YouTube videos. He has a ton of them and they are fantastic! See you and your staff again soon! Thank you for everything!

We are here visiting family in Olympia. I have been seeing a chiropractor for many years back home due to chronic cervical and lower back issues. After a long plane ride 2 days ago, yesterday, I experienced lower back soreness and spasms. I knew I had to get an adjustment from a nearby chiropractor. I saw Dr. Warwick yesterday and he knew exactly how to treat me. Today, I feel much better. I will not hesitate to see Dr. Wrawick in the future as the need arises. Joe

I went to Dr. Warwick yesterday for my first chiropractic appointment ever. The staff was incredibly helpful and really cares about their patients, additionally Dr. Warwick was very informative, and adjusted my entire body. He was very thorough in explaining what he was going to do and what needed to happen afterwards. They also gave me a book and free gel to help my pain. 100% would recommend checking them out, I already feel so much better, and already am looking forward to my next appointment!

REVIEW

For those of you who don't know me, My name is Brandy and I actually work for Warwick Chiropractic and Massage as a Chiropractic Assistant. I have been with the company for about 8 months now and have not had a better place to work. It took me a long time to think of what I wanted to say about the company and the people I work with not only on a daily basis but outside of the office as well. Everyone here has been really amazing to me, I don't feel regret or get nervous about going into work each day. I recently went on vacation and was actually excited about going back to work once I got home from the trip because of the atmosphere of the place we are at. Mostly I feel at home and I am happy to be able to say that because not a lot of people get that in a work environment, and having that at my age makes life a lot better and easier in every aspect. I have seen Dr. Warwick as a patient while working there and he does an amazing job, Had issues with my feet a while back and he had suggested I get adjusted and it was the first time I ever had, didn't ever think anything of the issue until I had started working here and as soon as I decided to try it out I felt a lot better the very next day. Not only does the company take care of every employee but I feel like I have a place and that makes me really happy every time I come home and every day I go into work. Thank you for hearing my thoughts I hope you enjoy our place! Look forward to seeing anyone that would like to come visit. <3

REVIEW

I had a wonderful first visit with Dr. Warwick today. He has an amazing office staff that are very friendly and provide you with all the information you need. Once I met with Dr. Warwick I was instantly at ease. He is an astute clinician with excellent bedside manner. His attention to detail is beyond reproach, he even picked up on subtle non verbal cues from me during my treatment. I highly recommend a visit to his practice if you are considering chiropractic treatment but aren't sure if it will work for you. Having previously visited other "back crackers" that don't take the time Dr. Warwick does with patients, I can assure you it will change your outlook forever. From one medical professional to another I can't recommend him enough. Thanks Dr. Warwick! See you on Tuesday!

I have been coming to this chiropractic for a couple months now, and I have found myself in awe at how amazing they are. It's not a 5 minute quick adjustment pop and get out. Dr. Warwick is genuine and really makes me feel better. He listens to me about the areas that hurt and adjusts accordingly. I have been to a few chiropractors in my life and I have never felt so comfortable with a staff that always goes above and beyond for their clients. I highly recommend Warwick Chiropractic and Massage. I have only had Amber as a masseuse, but yet again highly recommend she is amazing. Very good at working out knots, getting those muscles loose and she can use essential oils, hot rocks, and hot or ice lotions. This place is phenomenal and I have come a long way in a short amount of time, i had constant headaches, shooting pains down my arms and legs my back muscles restricted me from a lot of daily activities. Now I rarely have headaches, the shooting pains are gone and I can pretty much do any lifting and activities with my son that I want with out hurting myself. I am very thankful for Dr. Warwick and his team.

Very disappointed with the end result. Â They give extras at time of visit for a review onsite which is the only way I see them having such a good standing but then you get a bill. Even with insurance, I was billed \$170 for an adjustment after paying \$75 at the time of the visit. They charged my insurance \$420. Do a check of pricing at other offices before you make the same mistake as I did.

RESPONSE

Our office and billing department may be reached at 360-951-4504 to discuss any billing matters. We bill per federal guidelines, in line with usual and customary Thurston County rates, for each service that Dr. Warwick provides, and we accept all IN-network preferred provider insurance write offs.

Overall, best chiropractic care I've ever gotten. Dr. Warwick is kind and takes time to listen, he has a very unique way that will leave you speechless. Whether you've got in a car accident, injured at the gym or work, I recommend Dr Warwick to anyone out there. I used to see another chiropractor and I can instantly tell the difference. I felt a whole lot of improvement just from the first visit and Mr Warwick won't pressure you to make another appointment unless you need it. Overall staff are friendly and the place is welcoming. After managing a successful chiropractic office for seven years I find myself to be a bit of chiropractic snob.(Some maybe picky about coffee, I'm picky about my DC, lol) It was such a relief to find that laid back, yet knowledgeable person, that's primary focus was the core fundamentals of chiropractic that didn't involve selling me on a plan or charging unnecessary X-ray/exam fees. The staff is friendly, getting in to be seen is a breeze, Dr. Warwick's adjusting style is awesome, the atmosphere is great, I love how affordable he is and on top of it all you're getting great care. I can't say enough of Dr. Warwick and his team! I hope this helps in your journey for care :)
