REVIEW

After my first visit here, I can't say enough about Dr Warwick and his staff. I've been to a few other chiropractors and they try to sell you on a wellness plan for thousands of dollars. Instead, for a very reasonable price, they did a full exam, talked to me about my history and quickly discovered my problem areas. I couldn't be more satisfied for a first visit and I hope the next visits continue to be as good

REVIEW

I finally decided to go see a chiropractor after my lower back was in a lot of pain, was skeptical at first because this was my first time seeing a chiropractor as I didn't know what to expect. The first day I went here, everyone I encountered was extremely welcoming and made me feel comfortable from the start. I had my second session yesterday, and definitely feel a BIG difference from going to only two sessions. Highly recommend coming here, they walk you through everything as well!

RESPONSE

I'm glad Tammy you got some relief. It can take some time to heal with the right care. Thank you for taking time to share your experience as well. Everyone responds differently and we make every attempt to treat you as an individual and unique to "you" and your issues or concerns. You are welcome anytime. PS And thank you for what you do.

After going a few different places, looking for help with TOS & migraines. Soooooo glad I came here! Working with Marisa who is knowledgeable and has actually been able provide some relief. I'm feeling better & have not had a migraine since starting with her. Woo Hoo. Highly recommend ****ADDING TO MY REVIEW**** After being recommended for chiropractic services by my PM&R... I cautiously made any appointment (I have only had bad experiences with chiropractor type manipulations). I was beyond impressed with the examination and their knowledge! I also appreciated the follow up email that was sent out to me after. Had an awesome recap from my appointment and suggested plan of action that included exercises, nutrition and different things I could do for relief at home.... WOW

I am sceptical about chiropractors but I might have to change my mind about them. REVIEW

I went to Dr. Warwick's office where I was told that they were VA Community Care-Chiropractic program. I was Also told that they were partners with my insurance company Anthem Blue Cross Blue Shield and that they accept their coverage's. I confirmed with the office staff that I only pay what my insurance provider allows and they said yes. I received a referral for VA Community Care-Chiropractic program. Upon arrival in filling out the forms they told me after the 12 weeks of sessions are completed they would submit a Secondary Authorization Request (SAR) to get me continue treatment if needed. On the 12th week I was feeling much better. The very last thing Dr. Warwick had another chiropractor make an adjustment on me. THIS MAN HURT ME! Usually the pain goes away after a day at the most. It did not the pain got worse over two weeks. I went back in to the office and asked if they had submitted the SAR. I was told they had not gotten anything back. So I would have to pay for this session. Going in the door the receptionist told me that today's visit would be about \$100 this is before the doctor even touched me. That really confused me if there are partner with my insurance a spinal adjustment should only be about \$38 I believe they were charging me full price not the agreement between anthem and the provider of \$38. I was very upset and in Pain. I told Dr. Warwick that I was feeling fine until his other chiropractor did the adjustment and that I've been in extreme pain. He made adjustments on me but it did not fix the problem. They only charged me \$38 that visit. I've had to go to another chiropractor to get my back adjusted correctly. I found out this morning that Dr. Warwick's office had never submitted SAR. So the last day of my VA treatment I believe that I was hurt intentionally to make sure that I would come back for further treatments. Even going to another chiropractor my back is still not right yet and it's costing me money at my pocket because Dr. Warwick's office failed to do what they promised. Uses chiropractor at your own risk.

RESPONSE

Mr. Fox: Firstly, thank you for your service to our country. We are honored to serve the veterans in our region. Secondly, as you may know, HIPAA prohibits me from discussing anything regarding your case specifically, but we do feel its important to address the Secondary Authorization Request (SAR) as you mentioned. The VA requires we fax in our SAR along with your chart notes to get additional visits covered for you. Unfortunately, they only have one (1) working fax number for the entire South Sound Region. Hundreds of providers offices are attempting daily to fax into that one working fax. We do keep all copies of busy signal faxes and are happy to provide that to you to show we did make every effort to get more services covered for you. With reference to your private insurance. Our contract with your insurance states we are required to collect from you any copay, coinsurance, and/or deductible. Failure to do so could result in a loss of our contract with your insurance. Spinal adjustments

Google Review

vary in cost by insurance, the price is determined by your insurance. If you were only receiving a spinal adjustment that may have been the cost, however our records indicate more services were provided to you which increase the cost of services. Asking for funds upfront was based on your previous treatment with the VA and the benefits available to you under your private insurance. Finally, Warwick Chiropractic & Massage would NEVER intentionally hurt our patients. We pride ourselves in helping our patients recover quickly with no long-term plans required. Each chiropractor has a different technique and different levels of pressure. We do apologize that you felt this way, and as you mentioned we did try to alleviate your frustration upon your return by discounting the services you received. Iâ€™m so thankful for Dr. Warwick and Dr. Waling. They saw how much pain I was in and spent so much time with me this morning helping me and diagnosing me with a Sacroiliac strain. Itâ€™s definitely not 100% but they have adjusted me twice in one day and I had an injury massage the same day! They were so sweet to my husband and myself and took the time to get to know both of us! Iâ€™m so so thankful for them! And the brace they have me in is super sexy lol...well maybe not sexy but itâ€™s really helping!! Iâ€™ll be down for the count for a bit, but it wonâ€™t stop me for long!

REVIEW

This was my 2nd visit. ^ Soon as I walked in. ^ I checked in, took 10 seconds, and went to one of the treatment rooms. ^ I was immediately placed on the traction table with heat and began the treatment. ^ Loved that. I hate waiting. ^ I always feel if you have an appointment then you should be seen on that time. Not after. ^ Dr Warwick continued working on my back. ^ I have seen such fast improvement towards getting back to 'normal'. ^ I'll never have the injury free back when I was a teenager. ^ And will never be 100% pain free. ^ But that's what happens when you age and injure yourself. ^ You can't reverse or go back in time. ^ So beware of this when and if you decide to have treatments. ^ Dr Warwick even mentioned this to me during my visits. I hurt my back doing something that I have done hundreds of times. ^ I need to be more careful and start taking some preventive measures to keep from injuring myself. ^ The age thing wont go away. ^ But these treatments have gotten me towards the right direction where I can get back to my normal active lifestyle. Sure I'll have those mild aches at times. But at least I wont be hunched over and crooked like Quasimodo's 3rd cousin.

REVIEW

I hurt my lower back recently. Have had other injuries to it in my last job and over the years. Looking in the mirror, it was obvious I was out of alignment. So made my first appointment on line which is real nice. Walked in. Seen by office staff immediately. Very courteous. Â Paid my \$97. I recently retired so don't have insurance. Â Dr Warwick was professional, understanding and listened to what was bothering me. Â I'll have to go back for a few more sessions. Â So far, so good. Â I feel some improvement and it's a step towards recovery.

Fixed my back and so convenient that I don't have to make an apt, especially when my back goes out, it's so nice to be able to just go in and get it fixed the same day, thankfully it's been over 8 months since I've had any issues, seriously saved my back!

I have been to a lot of other Chiropractors and none have given me the hands on care that they provide. They are truly concerned about you and give you time to explain how you are feeling and actively try and make your pain go away. I have felt a lot better after just two visits and now I will be coming back monthly to keep the pain away.

Dr Warwick and staff are the BEST!! We move frequently and have seen many chiropractors over the years. Dr Warwick is the far and above the greatest chiropractor my family has ever had. My children love him as well. He is professional, thorough and truly caring. Schedule your appointment or walk in. Don't forget to schedule a massage as well, they do phenomenal work! If insurance doesn't cover chiro care, be assured that his cash rates are very reasonable!

I've suffered from back pain for the past 5 years. I honestly never thought Chiropractors were legitimate so I avoided them. That was a ridiculous misconception. I came into the office on my worst day in years and left with considerable relief. The process takes time but every time I left I felt worlds better. I did eight sessions over a few weeks and my back feels incredible. It's been a month since my last appointment and I still feel great. If you are feeling hesitant, don't. My lower back was out so bad I could hardly walk I want to one chiropractor didn't get any results and then decided to try acupuncture twice with no results So in a last ditch effort to find some kind of relief I got on Google and look for top rated chiropractors in the area And Dr Warwick's name came Up and I read all the positive reviews so I decided to call the next morning and told them I was in severe pain they told me to just come in they would fit me in I was very impressed with Dr. Warwick I've been to several chiropractors and he is top-notch he has all the state of the art equipment to go with it He went through everything with me in detail and got my back warm and relaxed also before he started the procedure which the other chiropractors didn't do After the first treatment I woke up the next day I was able to walk still had a little bit of spasm going on went back and got another adjustment in this evening I'm sitting here in disbelief of how quick he got me up and going again I will be going again He is definitely my guy from here on out

My husband needed immediate care for a pulled muscle and we were seen within ten mins of arrival without an appointment. He went in hunched over and in pain. On his first visit, he left with less pain, more mobility and could take a full breath in and out.
