REVIEW

I came in for my first visit a little skeptical because it was my first time ever going to a chiropractor. However the staff made me feel very welcomed and walked me through all the steps. I had lower back and neck pain from work when I entered but when I left I felt so much better. They are a fantastic clinic and I recommend everyone to go.

RESPONSE

Thanks so much for your review David. We are here for you and happy to help you out of pain.

REVIEW

Warwick chiropractic is great! Super friendly staff, great flexibility for appointments. Super timely, and great with kids too!! Both of my children were in a car accident, I called Warwick and they got them in FAST. Made both of my children feel welcome and comfortable. Would recommend them to anyone who needs any for of chiropractic work!!

RESPONSE

Thanks very much Stacy, it's a pleasure to help you and your children. We're here for you.

REVIEW

I have never been to a Chiropractor before. But I have been in such pain and bad condition that I just overcame my fear. I right away could come after I called and felt so welcomed at the office & so understood. Everyone was very nice and when I met with Dr. Warwick I felt safe and treated with compassion. I received a gift bag and really good instructions via email with exercise videos which I can watch at any time I need to. I still have to walk couple of steps to get back to a healthy condition but if you are like me, this is the place where you find easement & pain relief. I m looking forward to go again next monday and again ðŸ˜Š Thank you so much for being so kind and caring Anna

RESPONSE

Thank you Anna. Glad it was a positive experience. Our goal is to provide exactly what you said above. See you soon.

REVIEW

For almost two years, I've been struggling with lower back pain caused by a very long childbirth. Doctors told me to stop asking for referrals and accept the pain. So happy when I found Dr. Warwick. He took me seriously and came up with treatment plan that works for me even during my new pregnancy. Thankful to finally have back relief after suffering for so long.

RESPONSE

We are so happy you have found us Opal and we are so glad we have found a solution for your pain. We will continue to help and ease it for you.

REVIEW

First time to a chiropractor and I was a bit nervous! Iâ€™m a server and my back was wound up tight! I just left and Iâ€™m pain free! I canâ€™t even believe it! He was so kind and explained everything he was doing. Iâ€™m sending my kids to him....that speaks volumes!!!

RESPONSE

Awesome, great to hear Jody. Many people are nervous before hand, but our goal is to make every patient comfortable and explaining what we're doing and why goes a long way to allaying any nervousness. Glad to hear it worked for you and we look forward to helping your kids too.

REVIEW

Dr. Warwick and his staff were very kind and helpful. Dr. Warwick really took the time to listen to the issues I was having and explained in detail what he was seeing and the treatment route he felt was best. He makes sure that you are well informed and agree with the treatment. Highly recommended.

RESPONSE

Thanks Austin. Your review is greatly appreciated and we are happy we have been able to help you. Education is every bit as important as the therapy itself which is why we take time to explain what's going on.

REVIEW

I first came to Dr. Warwick with severe hip/joint/lumbar pain. I could barely walk, sit, or stand. After my first 3 visits I was able to take short walks and had significant improvement. He was understanding of the limitations I have due to fibromyalgia pain and worked with me according to each day's issues. My daughter who also has FM has had adjustments and relief after seeing Dr. Warwick. I highly recommend Dr. Warwick to anyone, but especially to those with chronic pain.

RESPONSE

It is a pleasure to help both you and your daughter. Glad we are part of your team of providers in your journey of health. All of us appreciate you and thank you for such a thoughtful review. See you soon.

REVIEW

I bent over to pick up my toddler and as soon as I got up, I fell to the floor and could not move. I called multiple Chiropractors and they would not see me same day and where extremely expensive. Thankfully, a good friend of mine recommended me to Warwick Chiropractic & Massage I have never been to a chiropractic office before and was nervous and in in so much pain. I called the Office and they allowed walk ins. I came in the ladies up front where professional, caring, kind and knowledgeable. I could not sit so they got me a table to lean on and do my paperwork. I was seen immediately Dr. Waling not only took amazing care of me but immediately made me feel comfortable. He explained what he was doing and why and what exactly was going on with my back. This office is by far one of the best medical offices I have ever been too. I highly recommend coming here. Thank you, Doctor Waling and Dr. Warwick, for the amazing care you all have given me and will continue too. It has only been two days since I pulled my back out and Iâ€™m able to get up on my own and be more mobile thanks to you guys!

RESPONSE

Thank you so much for taking the time to write such a great review. We are here for you and will do whatever we can to help you out of pain and prevent it from happening again too.

REVIEW

My coworker had recommended Dr. Warwick to me after my neck and back pain was starting to take a toll on my emotions and personal life. Yesterday was my first visit and I feel like a new person today. I had been to my regular doctor who prescribed all kinds of things to help with pain but it only made me feel worse. I finally made the choice to fix the actual problem and my life is already better. I know this all might sound a bit like an infomercial but honestly, I have been in constant pain for months and after just one visit I slept through the night and woke up with very little pain. My coworker said it best, Dr. Warwick is the best in town...I'm just sorry I didn't find him sooner.

RESPONSE

Thank you Leah and your coworker. We are here for you when you need us and plan to get you back to overall feeling better. Being a chiropractic patient over the years we are glad you chose us to help and serve you. We'll see you again soon.

REVIEW

I woke up in severe pain yesterday, after over doing it in my yard. I couldn't get into my regular chiropractor, and was referred to Dr Warwick chiropractic. I called and the receptionist said to come right in!! Walk in service!! My adjustment was thorough, careful and very effective! My neck feels great! And my lower back was still stiff but greatly improved! It was still a bit pinched this morning, so I went back and got adjusted and it is so much better!! I highly recommend Dr Warwick as well as Dr Waling! They both did an excellent job! It is such a relief to have my range of movement back!

RESPONSE

Thank you for your review. This is the main reason why we are walk in friendly, when you're in pain, we want our patients to be able to come right in and be treated. So glad you are feeling better, and if you need us again, we're here for you.

REVIEW

I woke up in severe pain yesterday, after over doing it in my yard. I couldn't get into my regular chiropractor, and was referred to Dr Warwick chiropractic. I called and the receptionist said to come right in!! Walk in service!! My adjustment was thorough, careful and very effective! My neck feels great! And my lower back was still stiff but greatly improved! It was still a bit pinched this morning, so I went back and got adjusted and it is so much better!! I highly recommend Dr Warwick as well as Dr Waling! They both did an excellent job! It is such a relief to have my range of movement back!

RESPONSE

REVIEW

Dr. Warwick is absolutely AMAZING!!! My husband woke up one morning and could barely stand up straight, lay or sit without pain. After one quick visit to see Dr. Warwick my husband was immensely better, and after the 2nd visit was back to his normal self. Fast forward 1 year and I'm 36 weeks pregnant struggling with sciatica pain and walking was extremely painful. Dr. Warwick was gentle and caring. Explained everything to me beforehand I felt completely comfortable and safe. After the first visit I felt much better but still had some pain. After 4 visits I was pain free and better than before. My daughter was born with shoulder dystocia and at 5 1/2 months old I brought her in to be adjusted. Right away her bowel movements became regular and she was taking longer, better naps...within 3 visits she began to sit without assistance, was doing better with tummy time and stopped the head shaking. Today I took in my 6 month old daughter for her 4th visit and my 2 year old daughter for her first visit. And had a discussion about some concerns I had. Before I told him anything he had shown me that her right leg was shorter than her left. He adjusted her and her legs were the same. She was giggling almost the entire time. All this to say, we love Dr. Warwick and trust our entire family to come see him. He is the best! ðŸ™‚,

RESPONSE

One of the greatest compliments is people referring their family and friends. Thank you for taking your time to write such a detailed and incredible review. Sometimes I never realize the impact the care we do can leave on people. Thank you for trusting us with your entire family. We are here for you.

REVIEW

Was working out at the gym when I tweaked the top of my neck during a lift. For the rest of the workout and the following few days, I felt extreme tightness at the top of my neck as well as headaches at the base of my skull. Any type of exertion would result in a headache in that area. I was able to walk in one day and was in a room within 20 minutes. I initially saw Dr. Waling that time and for the next 2 weeks and each time my neck felt improvement. Just finished my 4th appointment in 4 weeks, this time with Dr. Warwick and I am optimistic that the issues with my neck are gone. I am also glad that there is a chiropractic practice close by that is able to offer tangible results from the get go.

RESPONSE

Thank you Alex. We so appreciate working with you and getting you back to your workouts with out pain. Hope the stretch exercise demonstrated helps if a tension headache comes on. We will do our best to get you out of pain and out of the office as quickly as possible and you come back when you need us. Thank you for the well written review and see you soon.

REVIEW

I had an emergency problem related to my back. My regular chiropractor was unable to fit me in. A coworker recommended me to Dr. Warwick. The clinic was able to fit me in right away and Dr. Warwick got me straightened out in no time. I was able to go right back to work and within a day my pain was virtually nonexistent. The experience in the office was very professional and caring. I would definitely recommend Dr. Warwick and his associates to anyone. Thanks a lot for the great work!

RESPONSE

Thank you Brian so much for your review. We are happy to have been there for you. Come again anytime you need us.

REVIEW

We had a car accident on April 2018. We initially had a very good chiropractor but his office is far from where we live. So we decided to look for a another closer to our home. We found Warwick. They were kind and so helpful at first, theyâ€™ll offer you all their services then later youâ€™ll find out theyâ€™ll charge you to the moon. They donâ€™t really care about you . They only want to get as much as they can with your settlement money . Our advise: RECORD all treatments you had on a daily basis. KEEP all your records. Make sure you KNOW all the rates of their service. SIGN all transactions and keep a COPY -youâ€™ll need it later. Make sure you KEEP TRACK of your PIP or youâ€™ll pay out of pocket or from your settlement.

RESPONSE

Mrs. Brooks: Thank you for taking the time to send us a review, although we would have preferred to discuss this with you personally. We could not agree with you more that it is vitally important that patients take an active role in their care, including their insurance coverage. Personal Injury Protection is an agreement between you and your insurance for a set amount of funds that can be utilized for your care related to the accident. Insurance adjusters will not tell us at any point how much has been used and/or how much is left available to you. Since all providers are pulling from the same pool of money it is impossible to know when your benefits will/have maxed out. Also, insurance companies arbitrarily deny claims as "not medically necessary". Warwick Chiropractic takes every measure to get these paid including several appeal letters and direct complaints filed with the Washington State Office of The Insurance Commissioner. Once all our avenues have been exhausted your attorney is responsible for getting them paid. All attorney's (including yours) are made aware monthly of the balance. With respect to our charges/pricing: Warwick Chiropractic and Massage bases our billing rates on a medical billing standard known as the Resource Based Relative Value Scale (RBRVS). Every code a doctor can bill has been assigned something called a relative value unit, or RVU, that determines the cost of service. The dollar amount of the conversion factor for RVU's is established each year by Congress. This system is used for describing, quantifying, and reimbursing physicians's services relative to one another. This practice is used by Medicare and most private health insurance payors. The RVU is then calculated for the region in which the doctor works, for us Thurston County. The area/location is important for determining RVUs because it factors in three key components: the work required by the physician, the cost of doing business or maintaining a practice, and malpractice expense or liability expenses borne by the provider. These three RVU factors are then multiplied by the geographical adjustment that creates the compensation level for the service in that exact location. The geographically adjusted RVUs are then multiplied by a conversion factor that converts the RVU into a dollar amount, which is how we determine our rate. All our pricing is determined in the above described fashion. Our prices are normal and customary for the Thurston County region. Please call Rachel if you'd like to discuss this matter outside of this format. 253-212-0354

REVIEW

I was always skeptical about Chiropractic care, especially after having several friends in the past get care at other places, then constantly complain about needing to get adjusted, over and over again, week after week. It put a sour taste in my mouth and made me ever so leery of getting adjusted myself. Well, after several months of back-pain, and the insanely positive reviews I heard about Dr. W, I finally decided to give it a shot, worried that I may succumb to the same “need to be adjusted all the time, or forever be in pain issue I had seen before with other friends.” Man, was I mistaken! Dr. Warwick was amazing! He identified exactly the area’s and (through a bout of habit and activity questioning) behaviors that were causing my pain. He then adjusted me to resolve exactly those problems, as well as giving me home care advice on how to prevent it in the future. Not only did I feel a million times better after seeing him, but I have felt better ever since. Just like other products and services in life, there are goods, and bads. Well, Dr. Warwick is the best, and I cannot recommend him enough. If I could give him 6 stars, I would.

RESPONSE

Wow George thank you for writing such a great review. We strive to do our best for you each and every visit. We attempt to offer the best care and build confidence and trust with you with relief care for your neck and back pain. We also offer walk ins welcome and no appointment needed options along with online scheduling and text message communications. We also provide answers to commonly asked questions via many platforms so you and referrals gain trust in us. We look forward to future visits with us. See you soon.

REVIEW

The entire staff at Warwick Chiropractic is wonderful! They are very polite and are very accommodating. I suffer from migraine and Dr. Warwick has provided me with wonderful guidance to help limit the amount I experience per week. After a massage and adjustment I leave feeling relaxed and refreshed. Kelly, then massage therapist does an amazing job at finding any spots that need work and listening to any concerns or pains. Brandy and Chloe are very helpful at answering any question you have. Dr. Waling it's great and does what he can to help lessen any pain your experience(same for Dr. Warwick)! Prices are very responsible.

RESPONSE

Thank you so much for your great review, Brienna. So glad we are helping you. Migraines are nasty and we're happy we can help reduce their impact on you.

REVIEW

The entire staff at Warwick Chiropractic is wonderful! They are very polite and are very accommodating. I suffer from migraine and Dr. Warwick has provided me with wonderful guidance to help limit the amount I experience per week. After a massage and adjustment I leave feeling relaxed and refreshed. Kelly, then massage therapist does an amazing job at finding any spots that need work and listening to any concerns or pains. Brandy and Chloe are very helpful at answering any question you have. Dr. Waling it's great and does what he can to help lessen any pain your experience(same for Dr. Warwick)! Prices are very responsible.

RESPONSE

Thank you so much for your great review, Brienna. So glad we are helping you. Migraines are nasty and we're happy we can help reduce their impact on you.

REVIEW

I had my first appointment with Dr. Warwick today. The staff were helpful and knew what they were doing, and the appointment went great. Dr. Warwick took the time to find out about my medical history, and was concerned with what I was most in need of today, and addressed that first and very quickly knew what the problem was. He treated my main complaint, adjusted my outta whack back, and told me that I should come back once next week and then just whenever I felt I needed it. Have you EVER heard of such a thing? No 12 weeks of 3 times a week type thing. I left feeling great, I got an email with exercises that will help me and I look forward to my next appointment.

RESPONSE

Thank you Brandee for leaving your review. We really appreciate you took the time to be so thorough with your feedback and was validating how we continue to strive to deliver the best service. PS Do some of the prescribed stretches and exercises. See you soon. PSS Walk Ins Welcome No Appointment Needed.

REVIEW

The staff (Chloe and Brandy) were so both sweet and helpful; Dr. Warwick took the time to really hear me and understand my issues, then got right to fixing! I felt relief immediately. Then, my massage with Kelly was (not exaggerating) the best massage I've had in I don't know how long! This is truly a one-stop-shop for relief and relaxation!

RESPONSE

Thank you Kia for taking your time to leave a review. I know when the team receive feedback they are excited that they are mentioned when they are the reason that this becomes a positive experience. See you soon!

REVIEW

I waited to post a review because I wanted to receive enough treatments to give an honest and fair review. With that being said I can't say enough good things about Dr Warwick and his staff! First time I had a treatment at his office was months ago for a massage. I was walking some strong dogs that made my muscles very sore. Unfortunately the massage therapist I saw has moved to a different state so this review is not based off my experience with a massage. I told the massage therapist that I was hesitant with chiropractors because I've had 50/50 results with them in the past and she had assured me that Dr Warwick is amazing and she wasn't just saying that because she works for him, in fact she was set to move at that time so I felt her opinion was valid as she would no longer be working here. I'm SO glad I gave Dr Warwick a chance for chiropractic care because he has drastically improved my neck, back, shoulder, hips, and knee pain!!!! Now this part of the review is based off the office staff and environment. Amazing!!! Brandy is normally the one I've interacted with and I adore her. She's so friendly! The others are wonderful as well but I am terrible with names... sorry. This chiropractic office is the best I've been to hands down not just because of the staff but because of the machines they use for the adjustment and the care prior to being adjusted. They apply heat to your back while the table is stretching your muscles and in my honest opinion this makes this chiropractic office the absolute best. They even provide hair ties in case you forgot one, I've never seen that anywhere else... You won't be disappointed if you go to Dr Warwick. He is by far the best chiropractor I've ever seen and I've seen roughly 7 in my 32 years.

RESPONSE

Hi Heather. Thank you. A BIG thank you for your thoughtful and honest review. Appreciate your time in writing this review for others to hear and see just some of the things to make your experience more enjoyable. We look forward to taking care of you when you need us. See you soon!

REVIEW

I went to them in December because of the good reviews, and I had a horrible experience. Don't give them your business they will over charge you and charge you for things you don't receive. The front office staff is nice, but they were not upfront about billing and charging me for services. I went for a simple adjustment and they ended up charging me for rehab services. They did not tell me I would get a bill after my visit. I have a \$25.00 copay and that is all I should have been required to pay as my insurance company told me. They want me to pay \$120 for a 5 minute visit that should only cost me \$25. They make people pay more money than they should by making chiropractic patients "consent" to rehab that they aren't receiving or want to receive. I had a bad feeling about it while they were making me sign paperwork but the front desk lady told me not to worry, and I shouldn't have to pay any more money. I was rushed through my appointment and didn't have a single opportunity to ask questions or know what was being done. At the end of my visit they pushed me to write them a positive review so I could get a free ice pack on my way home. That might just be why there are so many positive reviews. I did not go back to this place and would not recommend anyone I know to go here.

RESPONSE

Ms. Jensen: Thank you for bringing your concerns to our attention. We have attempted to reach you to discuss personally but have not had luck. As you have stated our front office staff is nice, and we feel it is also important to mention they are also thorough. Upon check in, our front desk staff go over in detail (with every patient) the benefits available to them under their insurance plan including not only chiropractic but also for rehabilitation and physical therapy. We do this to ensure you understand all the services that you may receive in our office and to notify you that our office does utilize those codes. Many patients do not realize that under the chiropractic license they are also trained in physical and massage therapy. When applicable, some patients are given physical therapy stretches and exercises. In addition to the paperwork you reference, which goes over the benefits specific to your plan, we also advise you of each modality being utilized as it is done. Consent is obtained multiple times throughout the visit. Every doctor requires patients to complete paperwork, Iâ€™m sorry ours gave you a â€œbad feelingâ€. The paperwork is required by state and federal laws. There are other items you mention that HIPAA prevents me from commenting on. Please give us a call should you want to discuss further. Thank you.

REVIEW

I don't typically write reviews but felt compelled to post about my experience. I am actually a medical provider myself - an orthopedic surgeon. We are not taught about chiropractic care in our training. I knew nothing about this until about 6 mos ago. I was feeling pretty tight with horrible pain along my entire back after a 21 hour plane ride. A friend had suggested chiropractic care when I was in Las Vegas for a conference and I was completely blown away with the immediate and intense relief. I saw Dr. Warwick and have to say that I am incredibly grateful. He is obviously very professional and explained some of the tenets around chiropractic medicine. I was feeling very tight, stiff, sore. Much of this is from my own poor posture and always either hunching forward in the OR looking down or typing away at a computer. I could not believe the instant relief I had after his adjustment. I also appreciate how deep and intense the adjustment was - I could feel a huge difference compared to my 2 prior adjustments. I felt a vice grip being removed from my back and it's now 48 hours later. I have no soreness and just feel incredible. I've spent some time trying to understand and read about chiropractic medicine. It seems there are several theories. If you had asked me 6 mos ago, I would have been skeptical simply because this was never taught to us in Orthopedic Medicine. I don't know that I truly really understand, but I can only say that it works since I can feel such a dramatic difference. I strongly recommend those of you who may read this review to take the leap and trust that you, too, can also get some relief from your chronic pain/stiffness. I would absolutely recommend Dr. Warwick without any pause.

REVIEW

I cant thank Dr. Warwick enough... I have been going to his office for about a year now. I first went after I had a baby and my back was in rough shape from being a new mom. Then I was involved in a car accident this past summer and recently for an adjustment. Every time I go in I am greeted by the super helpful office manager Brandy who was a great help figuring out my insurance for billing. The office is always so clean and the staff is very nice. Then theres Dr. Warwick... he always very friendly and makes a real effort to ask about how my family is doing I believe he genuinely cares about his patients and wants to make sure your comfortable. He listened (and fixed) all my areas of concern. At the end of the appointment he always says that if I need to come back for any reason their door is always open. Â I recommend him to everyone I know!

REVIEW

I have never been to a chiropractor before. Was referred here for pain I had been experiencing every morning for over four years. After my first visit I woke up the next morning and had not felt that good in a long time. The team here explains things really well, they are realistic and honest in their approach and they won't break the bank. Also, I have yet to sit around waiting to be seen. As for cleanliness, they've cleaned the equipment in front of me each time. I won't go anywhere else unless I move out of the area.

REVIEW

After just one visit to Warwick Chiropractic, I feel better than I have in months!!! I suffer from chronic back pain due to scoliosis. When I came to Warwick for the first time last week, I could not sleep at night, or comfortably do anything for that matter. After just one treatment, I feel like a different person. I can sleep at night without waking up from pain. I have regained full mobility in my back and rest of my body. I can actually enjoy yoga and other forms of exercise, without pain getting in the way. I don't feel so stuck in the crooked position that my scoliosis tends to put me in. Will continue all of my future chiropractic care with Warwick. Thank you for relieving my back pain so quickly and efficiently. Love the friendly, caring, and professional atmosphere you offer.
