Dr Warwick really does know how to work with necks and spine fusions to relieve pain. The exercises and help aides were amazing... never have I been given video exercises from a chiropractor before... The only reason they did not get 5 stars is that they did not take my insurance, United Health. The main use of my insurance is for chiropractic care.

RESPONSE

Thank you Lora for your review. We appreciate you and love that you selected our office for care. We offer affordable time of service fee options for any health insurances we do not have a contract with. See you next visit and you are welcome any time. See you soon Lora!

Punctual, thorough, very easy to walk in with no appointment (though I could hardly walk). Reception area was well lit, staff was very gracious and efficient. Quick diagnosis, clear in explaining my role and theirs in the next several weeks. Described each procedure in advance and ascertained I was comfortable with each before proceeding. Immaculate clinic and excellent Covid protocol.

REVIEW

Today was my first treatment, so I can't really say too much other than my initial impressions. It was a rather disorganized introduction to the clinic - three sets of paperwork before they found the "right" set, appointment for wrong doctor, and other delays. However, despite the initial chaos, they did get me to the correct doc whom I very much liked! The staff was very caring and accommodating, trying to make things right. Everyone is entitled to have a bad day, and I just happened to be there for one. Glad I hung in there and did not bale! I look forward to the next treatment in a few days. ADDED a day later: Thank you for your response! I never judge folks by one bad day - as a business owner myself, it's impossible to have no hiccups. I base my conclusions more by how people respond when things go wrong, and you guys were A+! People need to see that sort of info in reviews, IMHO.

RESPONSE

Hi Valerie, we truly appreciate your perseverance and we are glad things worked out in the end. As you say, no one is perfect but when we do make mistakes, we want to get them sorted as quickly and efficiently as possible. Thank you for hanging in there and we aim to do better next time you are in.

REVIEW

On July 15th I was at drill practice on my horse (I'm on an equestrian drill team) and he got spooked and did his horse thing and jumped stage left and then bolted. I didn't get tossed but I think it would have hurt much less. By 10 pm that evening, I was in great amounts of pain and just breathing hurt. In the morning on July 16th, I could barely move and I could not straighten up to walk erect AT ALL. Now, let me say, I'm not a big fan of chiropractors and I've been lucky enough in my life that I've never needed one. I checked in with my doctor and she said I needed to see one. I googled "chiropractors" and Dr. Warwick's office was at the top of the list. After reading all of the WONDERFUL reviews, I figured what the heck, I'll give them a try. I got my first adjustment, by Dr. Waling, on Monday July 19th and I was astonished. He was careful, considerate and very gentle and he listened to me about where I hurt and took the necessary steps. After my approximately 15 minute visit, I walked out of there completely erect with the pain in my sciatic almost completely gone. By my second appointment on the 20th, I was nearly pain free and feeling much more alert and well rested. Yesterday (my third appointment) I actually walked up the stairs to my appointment and down the stairs after! I feel energized and healthy and just can't thank Dr. Waling and the entire staff of Warwick Chiropractic for my feeling of well being. You have a patient for LIFE!!! Thank you for giving my freedom of movement back to me.

RESPONSE

Hi Georgia, thank you so much for your detailed review. We were sorry to hear of your accident, but delighted to have been able to help and put you back on the path to recovery. We hear a lot of people say similar to you, never tried chiropractic and then are amazed with the results. It truly does work and we are so happy it has worked for you as well. We're here for you. Take care and thanks again.

REVIEW

I have been a patient of this office using my VA benefits. Recently, after the pandemic, I tried to use their walk in clinic. I knew that I would pay for this visit because it would take months before I got VA Approval. It was an emergency so I was willing to pay the \$47 office visit fee. The problem is they tried to charge me an extra \$40 for a consulting fee they normally offer for free. I get a letter sent to me monthly offering me a free consulting. It's bad enough they submitted paperwork to the VA without my knowledge, but then knowing they try to take advantage of someone they know is a vet, just shows how much the front office staff respects veterans.

RESPONSE

Hi Jeffrey. Thank you for your online review. Unfortunately your last visit was in 2019 and our office requires an updated evaluation when not seen for a year or more. Our lowest discounted fee is currently \$35 for an established patient updated evaluation that has not been seen in a year in our office. There are no "free consultations" so apologies if that was ever communicated. We do submit paperwork (SAR Report) to the VA to extend a referral request once an initial referral has expired with Community Choice Network. We respect all our vets in this office as one of our Doctors, Dr. Waling is a veteran himself and Dr. Warwick is a former veteran provider at JBLM. We apologize for any misunderstanding. Our office policy is when a patient has not been seen in over a year they receive an up to date evaluation to better serve you with appropriate care, treatment and records. We open our doors of communication to clarify any misunderstandings with you. So please let us know. Thank you for being a long standing patient and we are here for you when you need us. Our number is 360-951-4504 and we can arrange for a time to speak with Dr. Warwick and our Billing Dept. Manager Kierston to clarify any misunderstandings. Thank you.

Dr. Warwick is amazing. I was in debilitating pain and unable to walk. I called his office and explained what was going on. His staff asked when I wanted to be seen, when I said right away, they got me an appointment for 15 minutes from then. Dr. Warwick did an amazing job fixing my back. Both him and his staff treated me like family the moment I walked through the door. They explained what was going on, and how they would move forward with treatment. Iâ€™ve been to many chiropractors over the years and I must say, Dr. Warwick is the best.

REVIEW

Called to make an appointment with Dr. Warwick after watching some of his YouTube videos and feeling like he would be the best doctor to give me an adjustment. When I went in, I was seen by a different doctor, which would have been fine EXCEPT he is not who I made the appointment with. He was a good chiropractor, albeit a little abrupt for my stiff and weary body. This review is not a reflection of the other doctor's abilities, which I think were rather good. It's more a review of the practice as a whole for doing what I would refer to as a "bait and switch" type of maneuver. Just a warning that if you expect to see a specific doctor here, make that VERY clear when making an appointment.

RESPONSE

Thank you, Samantha for your feedback. Yes, our office has three doctors: Dr. Warwick, Dr. Greene & Dr. Waling of whom assist and help each other. We have a couple of procedures in place to help reduce this situation. Dr. Warwick is always happy to see patients who request him directly but please know we are all here to serve you. Apologies for the miscommunication regarding. See you at your next appointment and let our admin staff know you are directly requesting Dr. Warwick. Thank you and we are here to serve you.

Edit: After seeing my doctor the trip wasn't bad he diagnosed and set up a treatment plan for me for the next 6 weeks. Honestly I'm in here right now and I'm getting pretty mad. I had an appointment at 10:30 I finished my paperwork 5 minutes after she handed it to me. She told me they accepted care credit so I had tried to pay with that 5 separate times and even contacted my care provider to make sure my card was active after about 30 minutes of me trying to figure out my card she told me she had no clue but they don't accept care credit. So I payed with my debit card it is now 11:50 am for my 10:30 appointment and I've watched 6 people that came in after me go in. I'm paying a days worth of work to sit in this waiting room for 2 hours. I would not recommend unless you're looking to waste your own time or if you want to be generally ignored and treated with little to no respect by the receptionist. Also would like to say my appointment time said that I would be in office from 10:30-11:30 and it's now 12 o'clock and I haven't even been seen

RESPONSE

Thank you Devry. We apologize to you for the wait. It was incredibly busy with patient health complications. Your future established patient visits are much more convenient. REVIEW

I came into Dr. Warwick's office in severe pain. Costochondritis, neck pain, back pain you name it. I tried for four months to get help from various offices. After two visits I am fifty percent better. My pain has lowered substantially. I am getting my life back. He is a miracle worker!!

RESPONSE

We are so happy to hear that Hayley. We look forward to treating the other 50% in the future and getting you as pain free as possible.

REVIEW

Doctor Waling is very intuitive, asked me questions and tended to problem areas that got to the root of my problems. He is wonderful and kind, looking forward to staying with Warwick! They also sent me home with a nice welcome bag including a back and neck pain relief book and ice pack which I can't have enough of. Staff was professional and polite, I was very pleased on every level. My chiropractor of several years was injured and I was nervous to try a new place, my expectations were surpassed by a long shot and I walked out feeling better than I came in as well as feeling confident that Doctor Waling will be able to help me improve neck discomfort and migraines. Thank you everyone at Warwick for the warm welcome and a job well done across the board. I've already referred my mother your way, called her as I walked out to my car —

RESPONSE

I had a serious flare up in my back and that was progressively getting worse to the point of tears. my normal Chiropractor couldn't get me in. I called and they were able to get me in same day with massage to get me started back on the right path. Their knowledge and patience has gained a new client. They are working diligently to getting me back into shape. Highly recommend ðŸ˜ƒ!!!

REVIEW

My husband had a pretty severe back injury from working as a delivery driver. He was in pain for over a year. It all came to head one evening when his back hurt so bad he ended up stuck on the floor. After an ER visit via ambulance, enough was enough. I was recommended to Warwick Chiropractic by a very good friend years ago. I called and they verified he was able to be seen within 24 hours. The next day we were in the office. When I tell you what happened next was nothing short of a miracle, I am not exaggerating. My husband came in barely able to walk. In less than an hour, he walked out in less pain than he had been BEFORE his injury. I will never be able to thank this practice enough. You helped us more in less than an hour than everyone else did over the course of a year. The staff is incredible. The atmosphere is calm and welcoming. Everyone is so kind. But more so the doctors care about you. And they treat YOU. They listen to what you have to say and treat you accordingly. If I could give them 10 stars I would. Thank you Dr Warwick and associates. You are amazing.

REVIEW

If I could give a 6th â I would. I injured my back being rough with my child, and with the work I do, standing ALL day and looking down at a computer, has given me so much pain I was about to go to a doctor for meds. I've been adjusted by all 3 of the very caring, sweet, and knowledgeable chiropractors here and recommend all 3 of them. Now let me give special mention to Bridget, one of their massage therapists. She's such a sweet, wonderful person inside, but man does she also get the job done! She found out where my problem was in my hips and got me loosened up, so much so that when I stood up I cried happy tears. Those massages before adjustment loosened me up enough for the chiropractors to do their job easier and I just can't believe how rapidly Ive gotten better. The clinic is clean and tasteful. Following all Covid rules. Get in here if you can. Highly recommend.

RESPONSE

Wow, thank you so much for your review Sheree. We are so happy we have helped you find relief. Yes, massage therapy before an adjustment seems to help so much. If you need us again, we are here for you.

If its important to you to find chiropractic care that is available on your own schedule, with a Doctor that is easy to talk to- whose treatment is effective and thorough.. where you can feel confident in knowing you are supporting a small business that directly supports other local small businesses, and that goes out of their way to ensure their employees are treated with respect and always reminded how valuable they are- Look No Further! Get excellent care, on your own time. You're not gonna find that anywhere else!!

Just moved to area! While moving and unpacking I really irritated my back, and was in a lot of pain! Called and they were able to see me SAME day!!! A bit higher price point than I have paid at other places in the past as a private pay patient, but so thankful for the rapid treatment! Staff and Provider were kind, compassionate, and gentle! Very little wait time when arriving to office. Looking forward to future visits.

RESPONSE
